
Title: Theory of the combine

Author: Seth

In many wars lives have
been taken away from us
locking any elven spirit to
never be freed. It has
come to my attention
that to the day of
today, elf of all kind
have been looked down
for thier belives and
culture. The ones to
blame are non other than
our own ancestor for
seperating use between
dark elfs and elfs of the
virtue. My theory is that
to regain our fame in
such world is too unite
both diffrence and create
an even more powerful
one. One that would put
elven culture where it
belongs. One that would
claim land more than any
other. One that would put
fear to thier enemies and
security to thier allies.
This finish my theory I
hope you enjoyed the
book.

THE END.
